

EG

LIFE IN THE QUALITY FRAME

# A PERFECT CHOICE FOR UNIQUE STYLE

The main strategy that EG follows is to make its audience used to quality in a way that they will advise others around them to customize their lives with quality subsequently as well.

## INTRODUCING THE EG BRAND

The mindset supporting EG has its roots in quality and emphasizes qualifying life with high-quality products only. Although producing luxury products has already classified EG among the elite brands, EG is not content with luxury products in mass production but with limited editions of luxury, high-quality products in which details have been closely observed to provide a particular uniqueness. With a glance at this prosperous Italian fashion industry, EG is taking advantage of exemplary craftsmanship and premium materials to create leather products of unparalleled excellence.

Currently, two independent production lines of leather and fine jewelry in EG are closely supervised to meet EG's expectations regarding quality and uniqueness. Expert workforce run both lines in different design, production, quality control and sales sections. The company's products are confirmed after strict quality-control steps and will be approved after rigorous examinations.

## SHOWROOM

All leather and jewelry products are made of high-quality materials, with top-notch technology in which there is a great emphasis on producing with the most possible accuracy. All products are guaranteed, and the customers can take advantage of the free services provided in our loyalty club.
